Profile

Senior games producer with 25+ years in the games industry and adjacent delivery roles. I have shipped 28 titles across console, handheld and PC, and delivered 11+ Unreal Engine live events for thousands of concurrent players. I own production end-to-end, from scoping and milestones through launch and live ops, and lead with a people-first approach, using frameworks that enable great work rather than constrain it.

Skills

- Game production: end-to-end ownership from concept and scoping through milestones, launch and iteration
- Live operations: real-time multiplayer live events in Unreal Engine for thousands of concurrent players
- Delivery leadership: Scrum, Kanban, Waterfall and hybrid models; roadmaps, milestone schedules and budgets
- Partner management: publishers, platform holders, external developers and vendors
- Cross-functional alignment: design, art, engineering, audio, QA, marketing and localisation
- QA leadership: QA operating models, release quality and team coaching
- Platforms: PlayStation, Xbox, Nintendo, PC, Facebook and mobile
- Tools: Jira, Confluence, workflow design and production tooling

Work Experience

Senior Project Manager

Jean Edwards Consulting
03/2026 - Present

- Oversee end-to-end delivery of complex, client-facing software and data projects across Europe, the US and Africa, leading cross-functional engineering and technical analysis teams.
- Manage transformation initiatives for global reinsurance clients, covering legacy system data migration, platform integration and workflow automation using JEC's proprietary Alpha AI tool.
- Direct project financials, resource planning, risk mitigation and formal scope management.

Production Manager (Freelance)

Nexus Studios
08/2025 - 11/2025

- Provided hands-on production support during critical delivery phases on a fast-moving creative project.
- Freed senior leaders to focus on customer liaison while maintaining delivery pace.

Senior Producer / Head of QA

Imporium
01/2025 - 07/2025

- Owned project and product delivery from kickoff to ship, covering scoping, planning, tracking and adapting as needed.
- Introduced a QA operating model that improved release quality; led and coached the QA team.
- Bridged disciplines to keep communication clear, goals aligned and workflows unblocked.

Senior Producer

Improbable
02/2023 - 05/2025

- Produced EDISON, a metaverse gaming platform built in Unreal Engine, shipping 11+ large-scale live events for thousands of concurrent players worldwide.
- Delivered events including NPC Snatchers, HotShots, SummerCrush, Spacerace, Game4Ukraine and Beyond the Pitch with Zinchenko.
- Owned product delivery end-to-end, from scoping and planning through live event and iteration.
- Stabilised live event delivery by structuring priorities, risk management and team focus.
- Championed both product and player, ensuring high-quality output and engaging experiences.

Senior Development Manager
CCP Games
08/2021 - 02/2023

- Worked on EVE Vanguard, a PvP/PvE FPS connected to the EVE universe; led the Missions Team.
- Drove delivery of complex, multi-million-pound projects, balancing creative vision with commercial goals.
- Led large multidisciplinary teams across engineering, art, design, QA and production.
- Redesigned delivery systems and planning rhythms, improving predictability and transparency across feature streams.

Senior Risk Manager / Risk Partner, CTO and Engineering
Lloyds Banking Group
07/2016 - 08/2021

- Progressed from Digital Risk Manager to Digital Risk Strategy (Group Transformation) to Senior Risk Manager.
- Acted as Product Owner within engineering and AI/ML teams, managing backlogs and delivery priorities.
- Created and ran a Guiderails framework that kept delivery teams secure while enabling innovation.
- Advised the CIO, COO and CDO on tooling, cloud and machine-learning capabilities.

Digital Delivery Consultant
Accenture
05/2014 - 12/2015

- Placed with a range of client organisations as Delivery Lead, Release and Change Manager, Agile Coach and Senior Business Analyst.
- Led time-critical updates across Fiat Chrysler Automobiles UK brand websites, including campaigns, pricing changes and new model launches.
- Oversaw global change and release management for AstraZeneca and led its global Jira and Confluence rollout.
- Led business analysis for Discovery Channel digital products across broadcast and streaming.

Digital Project Manager
Semantico
03/2013 - 05/2014

- Delivered multiple digital projects on time, on budget and to client expectations.
- Managed web platform, SaaS and AMS programmes, including budgets from estimation through closure.

Lead Producer / Lead Product Owner
Kaplan International Colleges
05/2012 - 03/2013

- Owned the product lifecycle for multiple online and mobile platforms.
- Led third-party developers, artists and audio producers on a product bridging fun and education.

Producer
Arooga
12/2011 - 05/2012

- Managed multiple teams delivering rapid MVP prototype games, including data-driven development of Facebook games.
- Led Scrum practices and backlog management, prioritising features using player insight and performance data.

Game Director (Contract)
Zoe Mode
05/2011 - 12/2011

- Delivered projects on time and within budget, managing milestone schedules and hybrid delivery models.
- Built publisher and partner relationships; owned budgets, external vendors and contractual delivery obligations.

Producer / Development Director (Contract)
Electronic Arts
01/2010 - 05/2011

- Produced multi-platform console titles, including Harry Potter and the Deathly Hallows for Kinect and Wii.
- Managed scope versus capacity and quality benchmarks; coordinated with QA, PR, marketing, localisation and legal.

Producer
HotGen
09/2008 - 01/2010

- Produced a range of Nintendo DS, DSi and 3DS titles.
- Managed development teams, budgets, schedules, third-party contractors and publisher relationships.

Development Manager, BrandPlay (Contract)
nDreams
06/2008 - 09/2008

- Managed development of branded game experiences for the BrandPlay division.

Associate Producer
Eidos
01/2007 - 06/2008

- Produced console and PC titles alongside internal and external development teams.

Assistant Producer
Eidos
11/2003 - 01/2007

- Supported production of titles including Reservoir Dogs, Constantine, Conflict: Global Terror and Richard Burns Rally.

Lead QA Technician
SCi Games
03/2002 - 11/2003

- Led QA on titles including the Conflict: Desert Storm series.

QA Technician
Eidos Interactive
08/2000 - 03/2002

- Tested console and PC titles, logging and verifying defects through release.
