## PROFESSIONAL SUMMARY

Hands-on producer with 25 years of taking creative ideas from brief to delivery across feature film, live entertainment, console games, creative studios and digital campaigns for global brands. Most recently Production Manager on the feature film Genesis, keeping the shoot on time and on budget. Owns work end to end, from brief and scope through production, shoot and live event days, to delivery and iteration. Turns ambitious ideas into plans that are achievable, acts as an early production check on what is written, and stays calm and resourceful when the plan changes on the day. Comfortable using forecasting and risk data to make and defend decisions with senior leaders and partners. A daily AI user who builds his own tools and automations, tests what is promising, is honest about what is not, and fixes process gaps rather than just flagging them.

## PROFESSIONAL EXPERIENCE

### Production Manager (Freelance)

*Genesis, feature film, Cinevisionary | 2026*

- Production Manager on Genesis, an independent feature film, through to wrap of principal photography. The film is now in post-production.
- Kept the production on time and on budget across the shoot.
- Made sure cast and crew knew where they needed to be each day and what was being shot, owning daily schedules and shot lists.

### Senior Project Manager

*Jean Edwards Consulting, Brighton, UK | Mar 2026 - Present*

- Lead client projects end to end, owning scope, timelines and delivery rhythm across several workstreams at once.
- Keep stakeholders aligned on what is being made and when, raising risks early and agreeing a way through.

### Production Manager (Freelance)

*Nexus Studios, Remote | Aug 2025 - Nov 2025*

- Gave hands-on production support through critical delivery phases on a fast-moving creative project at a leading creative studio.
- Kept the work moving so senior producers could focus on the client relationship and the wider project.

### Senior Producer / Head of QA

*Improbable / Imporium (an Improbable venture), Remote | Feb 2023 - Jul 2025*

- Produced 11 large-scale Unreal Engine live entertainment events end to end, from creative concept and scoping through production, the live moment and iteration, each played by thousands of concurrent fans.

- Delivered football fan experiences with Victory League, including Game4Ukraine and Beyond the Pitch with Zinchenko, and interactive shows on Edison.wtf such as NPC Snatchers and HotShots.
- Worked with creative, design, engineering and event partners to turn ideas into experiences that were ambitious and achievable, flagging early when an idea needed rethinking.
- Led and coached the QA team and introduced a QA operating model that measurably improved release quality, protecting the standard on every drop.
- Ran live event days under pressure, making the right calls quickly when plans changed.

**Senior Development Manager**
*CCP Games, Remote | Aug 2021 - Feb 2023*
- Led delivery for the Missions Team, translating creative goals into realistic, trackable plans across design and engineering.
- Spotted gaps in how the team planned and tracked work and redesigned the delivery system without being asked, building the fix rather than just flagging it.
- Improved tooling, communication flow and cross-discipline alignment, lifting predictability across multiple feature streams.

**Senior Risk Manager / Product Owner**
*Lloyds Banking Group, London, UK | 2016 - 2021*
- Used risk and delivery data to shape and defend decisions with the CIO and CDO, influencing investment and accelerating approvals on major AI and cloud initiatives.
- Embedded risk management into engineering and AI teams without slowing delivery, and rolled out new digital risk frameworks across the bank.

**Digital Project Manager / Delivery Roles**
*Accenture (Discovery Channel, AstraZeneca, FCA and others), UK | 2013 - 2016*
- Delivered digital projects and campaigns for global clients including Discovery Channel.
- Brought agencies and client teams together around shared ways of working, improving campaign velocity and reducing overruns.
- Built a delivery template that became the standard for future client work.

**Games Production and QA (Early Career)**
*Electronic Arts, Zoe Mode, nDreams, Eidos, SCi Games, UK | 2000 - 2012*
- Started in QA at SCi Games in 2000, where attention to detail was not optional, and progressed into Production across SCi, Eidos, nDreams, Zoe Mode and Electronic Arts.
- Shipped 28 titles across PlayStation, Xbox, Nintendo and PC, including licensed film tie-ins such as Harry Potter and Constantine.
