

Luke Timms

Delivery Leader | Agile Transformation | AI-Augmented Delivery

Uckfield, UK | 07798796142 | luketimms@gmail.com | linkedin.com/in/luketimms | luketimms.online

PROFESSIONAL SUMMARY

Senior Delivery Leader and agile transformation lead with 25 years of experience spanning gaming, tech, live entertainment, and enterprise consulting. Bridges technical teams, commercial partners, and C-level leaders to keep ambitious projects moving. Proven track record owning delivery pipelines end to end across console, PC, live events, and risk management inside regulated banks. Balances high level governance with practical, hands on execution in Jira and modern workflows so teams ship reliably. An active AI user helping organisations scale delivery efficiency, with a clear view that what holds enterprise AI back is governance, funding, and decision rights, not the tooling itself.

CORE SKILLS

Production and Delivery: Production pipeline ownership, End-to-end delivery, Milestone planning, Schedule ownership, Scope control, Delivery frameworks, Release management, Delivery predictability and forecasting, Risk management.

Methods and Tools: Agile, Scrum, Kanban, Waterfall, Hybrid delivery, Jira, Sprint planning, Backlog management, Workflow design, Process improvement.

Games and Live Events: Unreal Engine, Virtual world live events, Real-time multiplayer, Live operations, QA leadership, QA operating models, Release quality, Console and PC production, Games production across PlayStation, Xbox, Nintendo and PC platforms.

Leadership and Stakeholders: Cross-functional team leadership, Publisher and platform holder liaison, Executive stakeholder management, Team coaching and mentoring, Vision alignment, Tradeoff and prioritisation conversations.

PROFESSIONAL EXPERIENCE

Senior Project Manager

Jean Edwards Consulting, Brighton, UK | Mar 2026 - Present

- Lead client delivery projects end to end, owning scope, milestones and delivery rhythm.
- Coach teams toward ways of working that fit the team rather than the template, applying the same people-first production discipline used at studio level.

Production Manager (Freelance)

Nexus Studios, Remote | Aug 2025 - Nov 2025

- Provided hands-on production support through critical delivery phases on a fast-moving creative project.
- Freed senior leaders to focus on customer liaison and wider project needs while holding delivery pace.

Senior Producer / Head of QA

Improbable / Imporium (an Improbable venture), Remote | Feb 2023 - Jul 2025

- Led production on Unreal Engine-powered virtual world live events, each serving thousands of concurrent players in real-time multiplayer.
- Owned product delivery end to end, from scoping through live event and iteration, shipping 11 large-scale events including NPC Snatchers, HotShots, Game4Ukraine and Beyond the Pitch with Zinchenko.
- Led and coached the QA team, introducing a QA operating model that measurably improved release quality.
- Bridged cross-functional teams, aligned vision and embedded better ways of working without adding red tape.

Senior Development Manager

CCP Games, Remote | Aug 2021 - Feb 2023

- Led the Missions Team, redesigning delivery systems and planning rhythms to increase predictability across engineering and design.
- Introduced frameworks that clarified scope, ownership and progress, lifting delivery consistency across multiple feature streams.

- Acted as the link between leadership and production, translating creative goals into realistic, trackable outcomes.
- Reduced production friction by improving tooling, communication flow and cross-discipline alignment.

Senior Risk Manager / Product Owner

Lloyds Banking Group, London, UK | 2016 - 2021

- Embedded risk management into engineering and AI teams without slowing delivery.
- Created and rolled out new digital risk frameworks across the bank, improving clarity and consistency.
- Advised the CIO and CDO on technology posture, influencing investment decisions and accelerating approvals on major AI and cloud initiatives.

Digital Project Manager / Delivery Roles

Accenture (FCA, AstraZeneca, Discovery Channel and others), UK | 2013 - 2016

- Delivered digital projects for global clients through structured rollouts that replaced reactive work with predictable frameworks.
- Improved campaign velocity by unifying agencies and client teams around shared delivery principles.
- Established a delivery template that became the standard for future client work.

Games Production and QA (Early Career)

Electronic Arts, Zoe Mode, nDreams, Eidos, SCi Games, UK | 2000 - 2012

- Started in QA at SCi Games in 2000 and progressed into Production across SCi, Eidos, nDreams, Zoe Mode and Electronic Arts.
- Shipped 28 titles across PS2, PS3, PSP, Xbox, Xbox 360, Wii, Nintendo DS, GameCube, Windows and Dreamcast.

SELECTED SHIPPED TITLES

- Harry Potter and the Deathly Hallows: Part 1 and Part 2 (2010-2011)
- Grease Dance (2012)
- Prism: Light the Way (2007)
- Reservoir Dogs (2006)
- Conflict: Global Terror (2005)
- Constantine (2005)
- Richard Burns Rally (2004)
- Conflict: Desert Storm series (2002-2003)

Full production credits: mobygames.com/person/38216

SELECTED LIVE EVENTS (IMPROBABLE, 2023-2025)

- NPC Snatchers, HotShots and Mashup, interactive events on Edison.wtf.
- Game4Ukraine, Clash of Fans and Beyond the Pitch with Zinchenko, Victory League fan experiences.
- SummerCrush, Halloween and Spacerace, seasonal virtual world events.
