Luke Timms

Senior Project and Delivery Manager

Uckfield, East Sussex, UK | lukedtimms@gmail.com | 07798 796142 | luketimms.online | linkedin.com/in/luketimms

Profile

Senior project and delivery leader with extensive experience managing complex digital initiatives across technology, live entertainment, financial services and consultancy.
I translate strategic objectives into clear delivery roadmaps, build robust execution frameworks and align cross-functional teams to deliver high-impact outcomes. My background spans fast-moving, high-risk projects where stakeholder trust, structured decision making and operational clarity are critical. I bring a pragmatic, people-first leadership style and a proven ability to run multiple parallel workstreams while maintaining quality, momentum and accountability.

Skills

- Project and programme management: roadmap ownership, lifecycle management, milestones, budgets and KPI tracking
- Risk and governance: risk and dependency management, change control, regulated environments
- Stakeholder management: executive and C-level communication, client and partner management
- Delivery methodologies: Agile, Scrum, Kanban, Waterfall and hybrid; Product Owner and Scrum Master
- Leadership: cross-functional team leadership, coaching and mentoring, offshore and distributed teams
- Process design: delivery frameworks, release management and continuous improvement
- Tools: Jira, Confluence (led a global rollout), digital platforms and SaaS

Experience

Senior Project Manager

Jean Edwards Consulting | 03/2026 - Present

- Oversee end-to-end delivery of complex, client-facing software and data projects across Europe, the US and Africa, leading cross-functional engineering and technical analysis teams.
- Manage transformation initiatives for global reinsurance clients, covering legacy system data migration, platform integration and workflow automation using JEC's proprietary Alpha AI tool.
- Direct project financials, resource planning, risk mitigation and formal scope management.

Production Manager (Freelance)

Nexus Studios | 08/2025 - 11/2025

- Provided hands-on production support during critical delivery phases on a fast-moving creative project.
- Freed senior leaders to focus on customer liaison while maintaining delivery pace.

Senior Producer / Head of QA

Improbable / Imporium | 02/2023 - 07/2025

- Owned project and product delivery from kickoff to ship for a real-time platform serving thousands of concurrent users.
- Delivered 11+ large-scale live events, including the Game4Ukraine charity match.
- Led cross-functional teams, aligning vision, unblocking issues and keeping progress visible to all stakeholders.
- Turned delivery chaos into clarity by prioritising ruthlessly and managing risk.
- Introduced a QA operating model that improved release quality; led and coached the QA team.

Senior Development Manager
CCP Games | 08/2021 - 02/2023

- Drove delivery of complex, multi-million-pound projects from concept towards launch, balancing creative vision with commercial goals.
- Led large multidisciplinary teams across engineering, art, design, QA and production.
- Increased delivery predictability by redesigning delivery systems and planning rhythms.
- Improved transparency and decision making with frameworks that clarified scope, ownership and progress.

Senior Risk Manager / Risk Partner, CTO and Engineering
Lloyds Banking Group | 07/2016 - 08/2021

- Progressed from Digital Risk Manager (2016) to Digital Risk Strategy, Group Transformation (2017) to Senior Risk Manager / Risk Partner (2019).
- Shifted the organisation from reactive mitigation to automated, proactive risk management.
- Advised the CIO, COO and CDO on tooling, cloud and machine-learning capabilities.
- Created and ran a Guiderails framework that kept delivery teams secure while enabling innovation.
- Acted as Product Owner within engineering and AI/ML teams, managing backlogs and delivery priorities.
- Advised on regulatory impact, including GDPR and FCA requirements, for chatbots and emerging digital products.

Digital Delivery Consultant
Accenture | 05/2014 - 12/2015

- Placed with a wide range of client organisations as Delivery Lead, Release and Change Manager, Agile Coach and Senior Business Analyst; selected clients below.
- Fiat Chrysler Automobiles: led time-critical updates across UK brand websites; managed release schedules, QA and approvals across marketing, agencies and technical teams.
- AstraZeneca: oversaw global change and release management for enterprise IT; led CAB governance and improved ITIL-aligned processes.
- AstraZeneca: led the global Jira and Confluence rollout across distributed teams.
- Discovery Channel: led business analysis for digital products across broadcast and streaming, turning complex needs into user stories and requirements.

Digital Project Manager
Semantico | 03/2013 - 05/2014

- Delivered multiple digital projects on time, on budget and to client expectations.
- Managed web platform, SaaS and AMS programmes, and project budgets from estimation through closure.
- Ran discovery phases, including client workshops and user research.

Lead Producer / Lead Product Owner
Kaplan International Colleges | 05/2012 - 03/2013

- Owned the product lifecycle for multiple online and mobile platforms.
- Defined and prioritised backlogs with senior stakeholders; held Product Owner and Scrum Master roles.

Producer
Arooga | 12/2011 - 05/2012

- Managed multiple teams delivering rapid MVP prototypes using data-driven development.
- Worked with senior leadership on company strategy and roadmap planning.

Game Director (Contract)
Zoe Mode | 05/2011 - 12/2011

- Delivered projects on time and within budget; owned budgets, external vendors and contractual delivery obligations.

Producer / Development Director (Contract)
Electronic Arts | 01/2010 - 05/2011

- Led delivery across multiple platforms and teams, managing scope versus capacity and quality benchmarks.

Producer
HotGen | 09/2008 - 01/2010

- Managed development teams, budgets, schedules and third-party contractors.

Development Manager, BrandPlay (Contract)
nDreams | 06/2008 - 09/2008

Associate Producer (from Assistant Producer)
Eidos | 11/2003 - 06/2008

QA Technician to Lead QA Technician
Eidos Interactive, SCi Games | 08/2000 - 11/2003

Selected Delivery Highlights

- 11 large-scale real-time live events serving thousands of concurrent users (Improbable / Imporium)
- Global Jira and Confluence rollout across distributed teams (Accenture / AstraZeneca)
- Digital risk frameworks rolled out across Lloyds Banking Group
- 28 shipped games across console, handheld and PC, including Harry Potter and the Deathly Hallows
